

Review

Discuss with others involved about how effective the support has been and the impact on the child in line with the review date.

Check back against observations and planned outcomes.

The next steps should be carefully planned with parents, outside agencies and the child themselves. Think about any other colleagues or specialists that might be able to help before the cycle begins again.

Broadwindsor Graduated Approach

■ Assess ■ Plan ■ Do ■ Review

Assess

Carry out child observations, hold discussions with key staff and parents/carers to identify and analyse the child's needs. Note the child's strengths and areas for development.

Assessments from outside agencies (Health, Educational Psychology, Social Services) may be required with parental consent.

Plan

Hold discussions and meetings with parents, colleagues or any specialists who are involved to plan for what support will be put in place.

Make your plan 'outcome focused' - what do you all want the child to improve, develop or achieve? The plan should involve the child and parents at the centre.

Identify the interventions and support required and the expected impact on progress, development and behaviour. Set a clear date for review.

Do

Implement the support as planned with class teachers, early years practitioners, support staff and any other staff members working together with support from the SENCo.

Continue with observations to see how the child responds to the support.
